

KEEP YOUR OPERATION ROLLING **POLYCERAMIX 360 SERIES**

Backed By The Industry's Best Warranty

Keep Your Equipment Running Longer.

Your rollers are always moving. Carrying heavy loads. Facing heat, chemicals, and constant wear. When those rollers fail, production stops and downtime gets expensive fast.

PolyCeramix 360 is your upgrade.

It combines the toughness of ceramics with advanced engineering to outlast traditional polyurethane covers.

The result? Equipment that runs longer, with fewer costly replacements.

Why It Works For You

- **Lasts Longer Under Heat & Stress** – Maintains strength up to **185°F**.
- **Resists Harsh Chemicals** – Won't break down where others do.
- **Handles Heavy Loads** – Built for pressure and weight.
- **Abrasion Resistant** – Stands up to constant grinding & scraping.
- **Tear & Cut Toughness** – Won't rip under sharp edges.
- **Consistent Performance** – Rebounds to reduce wear during nonstop use.

Where It Works Best

Steel Mills

Withstands heavy metal sheets and high pressure.

Paper Mills

Handles nonstop friction and pressure.

Textiles Manufacturing

Keeps up with high-speed production lines.

Glass & Wood Processing

Maintains grip and precision.
